ABOUT THIS WINERY

The project of Bodegas Volver was founded in 2004 by Rafael Cañizares, enologist through studies and viticulturist through his family tradition of four generations bound to the vine and wine.

The pillars of the bodega are based on the repositioning of quality Spanish wines and recovering old indigenous vineyards which, either through low production or lack of generational succession, had been lost.

TASTING NOTES

It displays a powerful color, rich with tannins which helps preserve the wine. It is loaded with abundant aromas and flavors of ripe fruit such as raspberry. On the palate, it is robust and persistent.

PRODUCTION NOTES

The grapes are sorted meticulously at the winery, and fermented in stainless steel tanks by indigenous yeast without added sulfites with minimal human intervention.

Harvest: beginning of october

SOILS: The soil is dry and shallow, and is primarily composed of limestone, which is the mother rock. The soil is intermixed with large chunks of pure chalk.
